

IDEAS FOR COLLABORATION

Counselors in Career Services appreciate the unique relationship you have with your students, and would be pleased to support your programs, or involve you in ours.

WHAT WE DO:

Speak at department-wide programs

We would be glad to present information about Career Services, or answer any questions about what we do and how we work with students. ([Contact us](#))

Speak in Classes / Work with Student Advisory Boards on special programs or workshops

We are often invited to come to classes, senior seminars, graduate programs to speak with students about crucial career issues related to their studies, and/or to offer special seminars on career options for specific disciplines/majors. Please let us know if you'd like us to prepare a panel or program for your students. ([Contact us](#))

Work with you to collect additional data on your alumni and current students

Because we already have excellent instruments for surveying alumni, departments have occasionally asked us to help them survey their specific alumni. Please let us know if you would be interested in such a collaboration. ([Contact us](#))

WHAT YOU CAN DO:

Speak at Career Services Programs and Panels

We host over 300 programs and workshops each year. Some of these are directed toward graduate students, and are comprised of faculty presenters; others (focused more toward undergraduates) could greatly benefit from faculty participation. Please let us know if you would be available to participate in career-related programming. ([Contact us](#))

Serve as a Health Professions Advisory Board (HPAB) Member

The Health Professions Advisory Board assists undergraduates and alumni applying to graduate programs in the health professions by running mock interviews with students and providing feedback, and is an essential part of students' application to medical, veterinary, or dental school. ([Contact us](#))

Suggest Topics for Career Services' Programs

If you have ideas for programs that you'd like us to offer, please let us know. ([Contact us](#))

Identify Alumni Who Want to Participate in Career Programs or Panels

We make extensive use of alumni/ae as panelists or solo speakers. If you know of graduates from your program who you think would be good speakers, we'd be glad to include them in upcoming panels. ([Contact us](#))

Meet with Employers Interested in Hiring Your Students

Many employers express interest in meeting with key faculty across all departments. If you would be willing or interested in meeting with employers, please let us know and we'll be sure to contact you when someone will be coming to campus. ([Contact us](#))

Encourage Your Students to Use Career Services

Many students look to their faculty for direction and guidance on "what to do next." Please encourage your students to visit our Web site and use our services. Career Services counselors have a great deal of experience with a wide range of career issues and choices, and we are eager to help students at all stages of their careers.
