

## **GRADUATE AND PROFESSIONAL SCHOOL ADVISING**

### ***What we offer***

Career Services has three advisors who serve undergraduates and alumni applying to graduate or professional school. Our advisors help students in some of the following areas: determining the fit between graduate programs, career plans and vocational interests; educating applicants about the nuts and bolts, and timing, of the application process; pinpointing optimal application strategies; and financing professional or graduate school. Our advisors also can work with applicants on developing personal statements.

### ***What we leave to you***

Only faculty can provide students and alumni with current, cogent advice about the best and most appropriate programs in their disciplines. We send our applicants to their faculty for their advice in this area, and on other matters related to their expertise.
