Career Services surveys all Master's and doctoral recipients shortly after they graduate. Positions and salaries listed below are from survey data returned to Career Services. Many who returned the survey chose to omit salary information, but we have included an average reported salary where applicable.

For areas in which less than three respondents posted salary information, we have not included an average salary figure.

For December, 2005 - August, 2006, we had 250 respondents. For the second year in a row, the majority of the data was compiled via an online survey.
