

Internships: Library Minute

This section is a *fantastic* resource for students seeking internships, particularly in the liberal arts fields. There really is something here for (almost) everyone. Even if resources are not current (i.e. published for the year in which a student is seeking an internship), they still can be used to learn about organizations and to get a sense of “what’s out there.”

General Guides: The section contains several large, national directories of internships, including:

-  *Kaplan Yale Daily News Guide to Internships*
-  *Peterson’s 2005 Internship*
-  *The Princeton Review Internship Bible*
-  *National Directory of Internships*
-  *Summer Opportunities for Kids and Teenagers*

Geographic Searches: For students seeking positions in particular geographic areas, don’t let them miss the large white binder which contains:

-  *Big Cities National Internships Guide*

It contains listings of internships in various regions of the country, plus an international internship section.

Other Opportunities: Standing folders contain pamphlets on *study abroad*, *international internships*, and *summer courses*.

Volunteer Opportunities: Several books and pamphlets orient students to summer service and volunteer opportunities, both domestic and international.

Field-Specific Guides: *These are excellent!* The internship section contains guidebooks dedicated to internships in specific fields, for instance:

Media	Theater	Sports	Environment ("Big Green")
State Parks	Reproductive Health Care	Peace Studies	History
Resorts	PA Newspapers	International	Advertising
Arts	Recreation and Leisure	International Affairs	D.C.: Law and Policy
Congress	Social Service Agencies	New Media	Work w/ Kids and Teens

Websites: An extensive list can be found at:

www.vpul.upenn.edu/careerservices/internships/internetlisting.html
