Highlights

Career Services surveyed Penn undergraduates to gather information about their experiences over the summer. In the Fall of 2008, career counselors distributed paper surveys at On-Campus Recruiting orientations and Career Services workshops and emailed students and academic departments an online version of the survey.

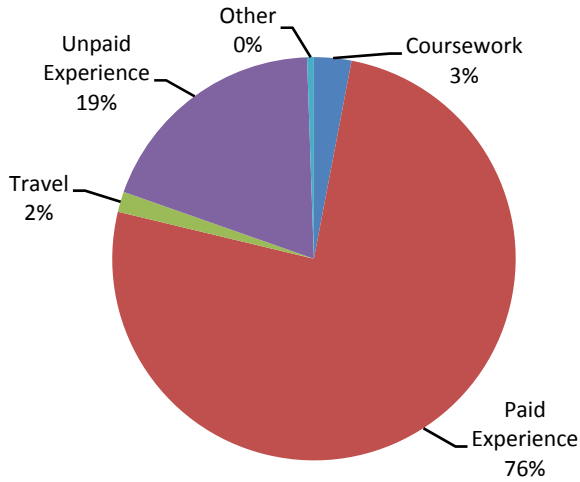

A total of 766 College of Arts and Sciences (CAS) students participated in the survey, which is a 74% increase from last year's response rate. Out of the estimated 1,600 students in the Class of 2009, 368 responded to the survey, which is an 18% increase from last year but just 23% of all rising seniors.

- **Salary:** The overall average salary for CAS students employed full-time was \$638 per week. The average weekly salary for rising seniors was \$780.
- **Industries:** The industries which had the most CAS interns are financial services, education (including higher education), communication, and services. The top three industries for rising seniors were financial services, communication, and education.
- **Employers:** More Penn students found summer positions at University of Pennsylvania (65), Children's Hospital of Philadelphia (13), and Lehman Brothers (13) than at any other employers.
- **International:** Of students with U.S. citizenship, 46 reported working abroad over the summer. Of 74 international students who responded to the survey, 48 worked in the U.S. over the summer. In sum, a total of 81 students worked abroad last summer, which represent 12% of the survey respondents who worked (paid and unpaid).
- **Public Service:** 42% of CAS students were employed in the education, nonprofit, healthcare, and government sectors.
- **Search Method:** 23% of all CAS survey respondents found their positions through Career Services leads, including on-campus recruiting. 32% found their summer positions through personal contacts. Of rising seniors, 32% used Career Services to find their summer positions.
- **Search Timing:** 14% of CAS seniors received summer offers in February 2008. Overall, by the end of February, 29% of CAS students have received their summer offers. Regardless of class level, most summer offers came in April.

Most Common Job Types / Work Activities

The following job types were the most common among the 701 summer positions reported by students:

Pages 11-49 of this report contains a list of all 701 positions organized by 93 job categories.

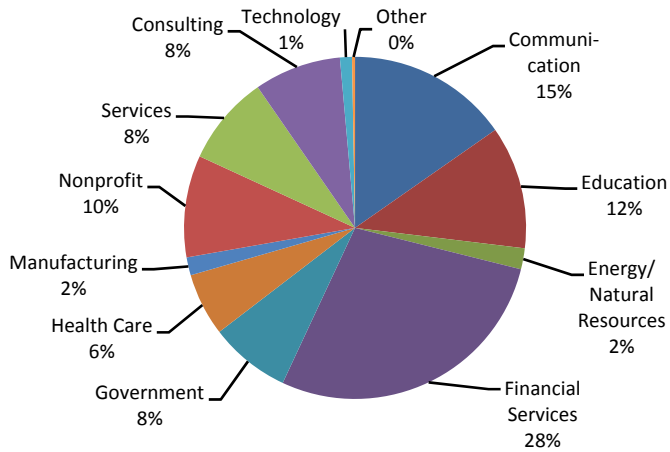

Advice from intern:

“Consulting is broad field; there are many non-financial firms out there filed under consulting that do interesting research. Look around for positions outside of what you'd ordinarily consider to be your strong suit and you might find something interesting.”

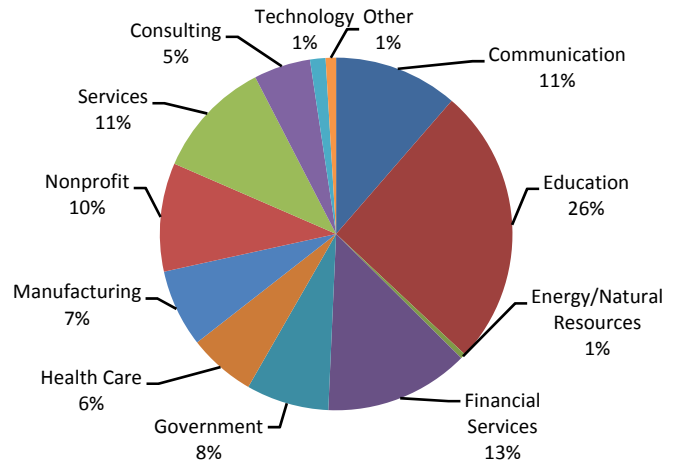

– CAS senior

Ranking of Common Job Search Methods (for respondents of all class levels)

Job Search Method	Percentage of successful job seeker
Contacts (e.g. Family, friends, faculty, departments)	32%
Applied directly to organization	18%
On-campus Recruiting	12%
Career Services leads (incl. PennLink)	11%
Other	9%
Internet Job Site or Advertisement	7%
Previous Employer	6%
Special Programs (e.g. INROADS)	4%

Advice from intern:

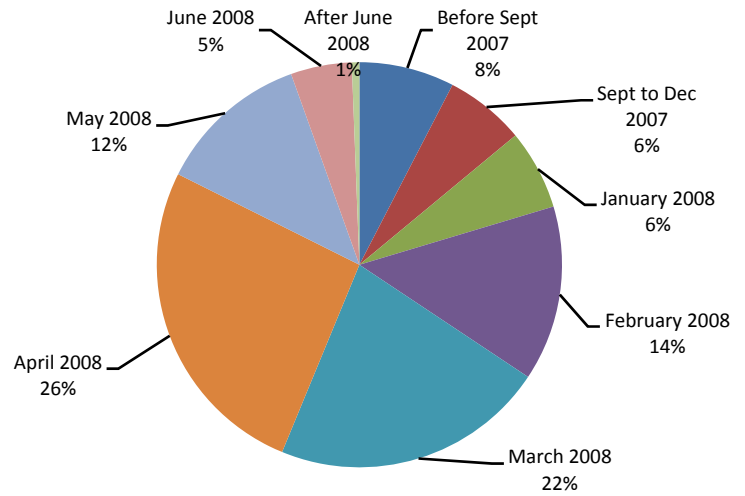

“In the job/internship search, I would advise all future interns to start early and take the search seriously. Conduct web-based and phone research regarding the organization and position you seek. Be proactive about contacting key people within the organization. Ask questions. But most importantly, take some time to lay out for yourself both all of the skills, talents, and interests you would bring to the position, and the set of opportunities and knowledge that the organization has to offer.” - CAS junior
