

Wharton Undergraduate Class of 2010 Career Plans Survey Report

	<u>2010</u>
Number of Degrees Awarded	632
Number of Completed Surveys	561
Response Rate	88.8%

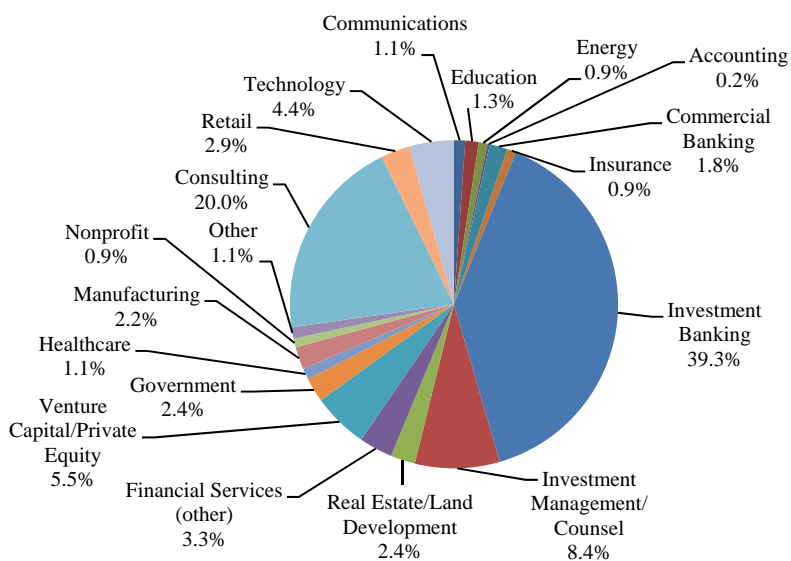

SUMMARY OF POST-GRADUATION PLANS

This report summarizes responses from December 2009 and May/August 2010 Wharton Bachelor of Science in Economics degree recipients.

Although the job market continued to be challenging, as in previous years the majority of graduates (nearly 83%) entered the labor force upon graduation, while slightly over 5% pursued additional education. The average salary for students entering the workforce, at \$63,555, was substantially higher than in previous years.

INDUSTRIES EMPLOYING WHARTON GRADUATES

The Class of 2010 entered a wide range of industries upon graduation, although financial services continued to be the most popular. Within finance, more students accepted offers in investment management and private equity/venture capital, with slightly fewer pursuing investment banking opportunities than in 2009. Consulting was also a popular choice, with 20% of the class accepting positions in the industry, up from 17.1% in 2009.

Employers hiring the most Wharton graduates included Goldman Sachs, Citi, Boston Consulting Group, Bank of America Merrill Lynch, Blackstone and Credit Suisse.

METHODOLOGY

Students were asked via several e-mail requests during Spring 2010 to complete an online version of the Career Plans Survey. Follow-up emails/surveys were sent in July and September 2010 to those students who had not responded or had previously indicated they were “still seeking.” A total of 561 surveys were returned, resulting in an 88.8% response rate.
