	<u>2005</u>	<u>2004</u>
Number of Degrees Awarded	571	586
Number of Completed Surveys	417	344
Percentage Response	73.0%	58.7%

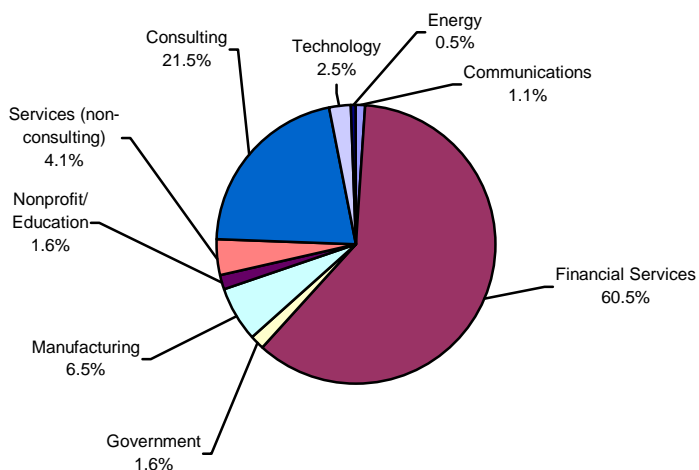

SUMMARY OF POST-GRADUATION PLANS

This report summarizes responses from December 2004 and May/August 2005 Wharton Bachelor of Science in Economics degree recipients.

The economy continued to improve, bringing an increase in the number of employers visiting campus to conduct information sessions and interviews. Over 85% of the survey respondents reported that they were employed full-time, with most respondents receiving their job offer before or during the fall semester. Just over 5% of the students enrolled in graduate school. A similar number indicated they were still seeking employment as of July 2005.

INDUSTRIES EMPLOYING WHARTON GRADUATES

The financial services industry continued to be the most popular career choice for Wharton students, although there was a slight dip from 2004. Consulting continues to place second in terms of career choice, with a higher percentage taking offers than in 2004.

The percentages of students entering the communications, energy, government, manufacturing, non-profit, technology and service (non-consulting) industries are roughly the same, with slight increases or decreases, compared to 2004.

METHODOLOGY

Students were asked via several e-mail requests during Spring 2005 to complete an online version of the Career Plans Survey. A follow-up survey was mailed in July 2005 to those students who had not responded or had previously indicated they were “still seeking.” A total of 417 surveys were returned for a 73% response rate.
