INDUSTRIES EMPLOYING WHARTON INTERNS

Financial services continued to be the major industry employing Wharton students in summer internships, followed by consulting. However, as the graph to the left demonstrates, opportunities exist in many industries for students seeking other types of internships.

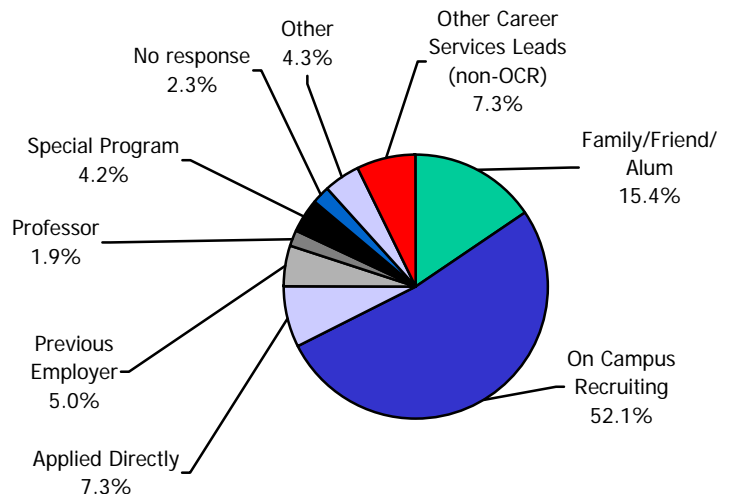

Comments from the Class of 2007

I had a perfect, wonderful experience in NYC and will be continuing with the same company (group too) starting in Summer 2007. Recruiting was tough (competitive) but opportunities at Penn are endless.

I got my job by letting friends and acquaintances know that I was looking for an internship.

By working at a small PE company, I was able to gain tons of face-time with high level executives.
