Methodology

Students were asked via several e-mail requests during Spring 2017 to complete an online version of the Career Plans Survey. Follow-up emails were sent and phone calls made between May and November 2017 to those students who had not responded or had previously indicated they were “still seeking.” Additional follow-up was done by checking LinkedIn profiles and then confirming the status of what was found there either by phone call or email.

This report is based upon a total of 1,317 individuals from the 1,577 degrees awarded in the Class of 2017, representing a total knowledge rate of 83.5%. 92% are direct respondents to our survey and 8% were obtained through trusted secondary sources such as LinkedIn.
