International Service Learning
Our mission is to support cultural awareness, service-based learning, and sustainable development projects through experiential and responsible volunteer travel programs that inspire local and global service.

As an educational organization, ISL seeks to accomplish our mission by partnering volunteers and professionals from developed countries with service opportunities in developing countries. These opportunities are offered on a contractual basis to educational institutions, organizations and to individual volunteers. The resulting financial resources are used to fund teams serving in Central and South America, Mexico, the Caribbean, and Africa.

Lehigh Valley Health Network

We heal, comfort and care for the people of our community by providing advanced and compassionate health care of superior quality and value supported by education and clinical research.

Main Line Health System

Main Line Health is suburban Philadelphia’s most comprehensive healthcare resource, offering a full range of medical, surgical, obstetric, pediatric, psychiatric and emergency services.

Forming the core of Main Line Health are four of the region’s most respected acute care hospitals—Lankenau, Bryn Mawr, Paoli and Riddle—as well as one of the nation’s premier facilities for rehabilitative medicine, Bryn Mawr Rehab Hospital. We’re especially recognized for our cardiac, orthopedic, oncology, rehabilitation and women’s clinical services.
Memorial Sloan Kettering Cancer Center

Memorial Sloan Kettering Cancer Center — the world’s oldest and largest private cancer center — has devoted more than 130 years to exceptional patient care, innovative research, and outstanding educational programs. Today, we are one of 41 National Cancer Institute–designated Comprehensive Cancer Centers, with state-of-the-art science flourishing side by side with clinical studies and treatment.

The close collaboration between our physicians and scientists is one of our unique strengths, enabling us to provide patients with the best care available as we work to discover more-effective strategies to prevent, control, and ultimately cure cancer in the future.
